

Andy Xu

San Jose, California — andyx@andrew.cmu.edu — linkedin.com/in/ayzxu — (408)-614-6921 — US Citizen

EDUCATION

Carnegie Mellon University, Pittsburgh, PA

B.S. in Business Administration + Computer Science

Enrolled: Aug 2022 — Expected: May 2026

Overall GPA: 3.5

- **Relevant Coursework:** Principles of Imperative Computation, Parallel and Sequential Data Structures and Algorithms, Machine Learning for Business Analytics, Computer Systems, Business Computing, Optimizations in Business, Methods for Statistics and Data Science
- **Dean's List:** Spring 2024, Fall 2024, Spring 2025

SKILLS

- **Languages:** Python, Java, C++, C, SQL, Go
- **Libraries/Frameworks:** React.js, HTML, CSS, Pytorch, TensorFlow, Pandas, NumPy

WORK EXPERIENCE

IBM San Francisco, CA
AI Engineer Intern May 2025 - Aug 2025

- Developed an intelligent document processing pipeline leveraging **OCR**, **Tensorflow**, and **Granite-8B** to decrease costs by **80%** and speed up by **150%** when compared to GPT-4o
- Created a semantic search pipeline and chatbot utilizing **watsonx.ai**, **Pytorch**, and **Puppeteer** for Minnesota Government
- Engineered full-stack automated recording summarization platform integrating **watsonx.ai** with **Flask** and **ThreadPoolExecutor** parallel processing, achieving **80%** faster transcription and **90%** time savings
- Built internal AI OneDrive document chat system using **LangChain** and **vectorized Lucene database**

IBM San Francisco, CA
Data and AI Specialist Intern May 2024 - Aug 2024

- Ensured client readiness for Data and AI infrastructure with technical solutions, reducing deployment time by 20%
- Prospected **10+** use cases and demos for IBM's **watsonx.ai**, **watsonx.data**, and **watsonx.gov** in Python and SQL
- Built fullstack application with **Node.js**, **HTML**, and **CSS** for manipulating sales CSV files using **Pandas** in Python
- Constructed custom Excel spreadsheet with macros to assist sales team with **40+** clients

Chiru Labs Los Angeles, CA
Software Engineering and Marketing Intern Jun 2023 - Aug 2023

- Built a client-facing website using **React.js** and a **Python** backend, improved UX with responsive animated UI
- Conducted web3 market research that identified **10+** key customer segments, resulting in a **15%** increase in revenue

EXTRACURRICULAR EXPERIENCE / PROJECTS

Full-stack Spoiler-block Chrome Extension
Repository: <https://github.com/ayzxu/spoilerblock> Nov 2024 - Ongoing

- Building a NLP-based Chrome extension to block spoilers on websites. Increased efficiency by **40%** from baseline MVP

Brawl Stars Agent
Supercell Game Nov 2024 - Ongoing

- Building an AI-powered bot for mobile game Brawl Stars using computer vision and reinforcement learning

ThreeGL Planet – WebGL Game World
Repository: <https://github.com/ayzxu/threegl-planet> Sep 2025

- Built a browser-based 3D game world with React, Three.js, and WebGL, featuring spherical gravity orbiting camera
- Designed asset pipeline (GLTF + Draco/KTX2 compression) and optimized performance for desktop and mobile devices

Chess AI
Repository: <https://www.github.com/ayzxu/chess> Dec 2022

- Designed AI opponent using minimax algorithm with alpha-beta pruning for 3-depth game tree search
- Human vs. human and human vs. AI game modes with custom GUI

CMU Finance Teaching Assistant Pittsburgh, PA
70-391 & 45-720 TA Aug 2024 – Ongoing

- Instructed and assisted **100+** graduate and undergraduate students with financial analysis concepts
- Provided detailed feedback on capital budgeting and financial assessments

CMU Men's Club Volleyball Pittsburgh, PA
Officer/Captain Sept 2022 – Ongoing

- Led team to **top 15** in Division II of National Club Volleyball Foundation in 2023, 2024, 2025
